Numbers have been rounded using the HESA Methodology. Percentages are calculated before rounding. Please note the University has separate recruitment streams for Home /Islands and Overseas/EU students.

¹The number of applicants offered an alternative programme counts applicants flagged as having received a 'Referral' offer. In these cases applicants are offered an alternative programme if we are unable to make an offer for their first choice but we feel that they would be a good match to an alternative programme.

² The number of CSSS referrals was greater than usual and offer rate was lower than usual for this year because the target was much smaller than usual

³The high number of unsuccessful applications to the Foundation Centre is mostly comprised of applications from students where the Foundation route is not a suitable choice for them.
