Welcome from the Executive Dean

At Durham University Business School, we pride ourselves on fostering a vibrant and inclusive community where innovation and academic excellence thrive. Our dedicated faculty, state-of-the-art facilities, and diverse student body create an environment that is both stimulating and supportive. You will find numerous opportunities to engage with cutting-edge research, collaborate with industry leaders, and develop lifelong professional networks.

We understand that pursuing a Masters degree is a significant commitment, and we are here to support you every step of the way. Our comprehensive resources, including dedicated academic advisors, career services, and extracurricular activities, are all designed to enhance your learning experience and ensure your success. We hope to be part of your academic journey.

**Professor Cathy Cassell, Executive Dean,
Durham University Business**

Why Durham University Business School

6

A legacy of excellence

Durham University Business School, founded in 1965, stands as one of the UK's longest-established business schools. We are proud to be an integral part of Durham University, a prestigious institution founded in 1832 with over 190 years of history. Durham University is a globally outstanding centre of teaching and research excellence, known for its unique and historic setting and its collegiate community of extraordinary people.

Triple accreditation

The Business School also has the privilege of holding the prestigious triple accreditation (AACSB, AMBA and EQUIS). This places us among an elite group of business schools worldwide, recognised for meeting rigorous standards of excellence in education, research, and operations.

10th in the UK

Financial Times European Business
School Ranking (2023)

Global recognition and connections

Durham University is ranked among the world's top 100 universities, in the QS World University Rankings 2024. Our Business School boasts a global alumni network of over 36,000 graduates spanning more than 140 countries, and a wider university alumni community exceeding 128,000 individuals. Our staff and student body represent over 100 countries, reflecting our commitment to fostering a diverse and inclusive environment.

Innovative learning and research

At Durham University Business School, we believe in getting closer to the realities of business. Our approach combines academic excellence with insightful research and exceptional global business connections. We are dedicated to supporting innovation and teaching tomorrow's leaders. Our programmes are designed to equip students to become innovative business thinkers of the future, capable of making a significant impact in their careers and beyond.

Community and networking

As a student at Durham University Business School, you will join a dynamic and supportive community. Our extensive alumni network and strong industry connections provide invaluable opportunities for mentorship, networking, and career advancement. We pride ourselves on fostering a collaborative and supportive environment where students can thrive academically and professionally.

- Language module offered by the Centre for Foreign Language Studies

5th in the UK
for Accounting and Finance
Guardian University Guide 2025

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum.

Opportunities on our MSc Accounting programme include:

- Summer School
- Dissertation Abroad
- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Introduction to Economics

Economics at Durham inspires and challenges our students, transforming them into critical thinkers and problem solvers equipped to tackle real-world challenges. Our graduates leave Durham ready to embark on successful careers as consultants, analysts, and graduate economists. They make meaningful contributions across diverse sectors globally, leading businesses or working in finance, government, and multinational companies. Rigorous coursework, dedicated resources, and expert faculty mentorship create a supportive learning environment where students thrive academically and personally, reaching their full potential.

The Department of Economics at Durham University Business School is recognised across the globe for its high quality teaching and research. The department's research is broad and far-reaching, with a range of active research centres delivering impactful expertise across the global business world, informing policy and changing business practice.

durham.ac.uk/business/about/departments/economics

Our Masters in Economics programmes offer rigorous training at the frontier of research to meet the most advanced requirements of employers in the global job market. Whether you are considering a career in industry, policy making institutions or academia, the analytical and quantitative skills gained here at Durham would be an invaluable asset.

Dr Vsevolod Ostapenko, MSc Economics Programme Director.

4th in the UK
for Economics
Guardian University Guide 2025

MSc Economics

Entry requirements

For Masters programmes in Economics you will need the equivalent of a UK upper second-class single or joint honours degree in Economics, Finance, Mathematics, Statistics, Physics, Computer Science or Engineering. Applicants with degrees in other subjects are encouraged to apply as long as they have achieved good grades in two Mathematics/Statistics/Econometrics modules covering calculus, probability theory/econometrics and ideally linear algebra. Always refer to the website for the latest, most up to date entry requirements.

If English is not your first language, please note that you must meet a minimum overall standard in a recognised test of English. Further details of these tests and minimum overall scores are available on our **MSc Economics webpages**.

Apply online

For further information on how to apply and the most up-to-date course fees please visit our **MSc Economics webpages**.

durham.ac.uk/business/programmes/masters/masters-in-economics

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

durham.ac.uk/business/programmes/masters/scholarships

Programme overview

Masters in Economics programmes at Durham University Business School provide an in-depth understanding of economic theory and methods of applied analysis. Our portfolio includes the following three degree routes:

- MSc Economics
- MSc Environmental and Natural Resource Economics
- MSc Behavioural Economics

Optional modules

You will then choose two or four optional modules (depending on your chosen programme), from a list which has typically included:

- Development Economics
- Game theory
- Industrial Organisation
- International Trade and Finance
- Money and Banking
- Microeconometrics*
- Time-Series Analysis*
- Environmental and Climate Economics*
- Natural Resource Economics*
- Behavioural Economics*
- Experimental Economics*

For a full list of elective modules by programme visit our programme pages.

** can only be chosen as an optional module, if the module is not a core in the selected programme.*

Core modules

Customise your degree to your chosen career path or a specific area of interest.

Core modules:

| | MSc Economics | MSc Environmental and Natural Resource Economics | MSc Behavioural Economics |
|---|---------------|--|---------------------------|
| Advanced Microeconomics | ● | ● | ● |
| Advanced Macroeconomics | ● | ● | ● |
| Econometric Analysis | ● | ● | ● |
| Microeconometrics OR Time-Series Analysis | ● | ● | ● |
| Dissertation | ● | ● | ● |
| Environmental and Climate Economics | | ● | |
| Natural Resource Economics | | ● | |
| Behavioural Economics | | | ● |
| Experimental Economics | | | ● |

Pre-sessional modules:

In order to facilitate your learning journey, we offer an online pre-sessional module **Introduction to Economics**. It features six selected topics, providing the main theoretical tools necessary to properly prepare you for advanced modules in Microeconomics and Macroeconomics within our MSc routes. By taking this module, you can develop the essential preliminary knowledge, which is particularly beneficial to students who are new to the field of Economics.

The pre-sessional is fully self-paced and is available to all students on our programmes, several months before the first teaching term begins. This module includes:

- Pre-recorded video-lectures, with a list of suggested readings for every topic
- Quizzes for you to check your understanding of the terminology and models discussed in the videos
- Problem sets containing practice exercises (with solutions available).

Additionally, you will have a chance to take the pre-sessional module on **Mathematics and Statistics**. This course will cover the key concepts from Calculus, Linear Algebra, Statistics and Probability Theory, which are required to study and comprehend Economics at Masters level.

Software for data analysis

The skills of collecting, analysing, and interpreting data are a critical component in the toolkit of a contemporary economist. During your MSc programme, you will learn how to handle data and undertake empirical research using **R** and **STATA**. You may also be offered extra-curricular training courses on various programming software tailored for applications from different fields of Economics, including applied econometrics and macroeconomics. We have a successful track record of offering a short-term training in **Python** for our MSc students. Designed and taught by professional data engineers, such courses provide our students with valuable programming skills to assist in advanced research and enhance their careers.

The rigorous curriculum of my Masters has equipped me with a solid foundation in economics, poised to significantly contribute to my role at the Bank of England.

Imeth Kapuruge,
MSc Economics 2023/2024

City of London field trip

The field trip to London offers a unique opportunity to meet senior professionals in the financial industry, including chief economists, chief risk officers, and other leaders. It provides invaluable insights from these experts, an understanding of current industry trends, and a view of the challenges and opportunities within the global market. Additionally, you will benefit from networking with these professionals, helping you explore potential career paths in your chosen sector. The list of organisations visited by our students during this trip in the past includes the Bank of England, Bank of China, Crédit Agricole, and Sage.

Enrichment opportunities

We offer a range of additional opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum. Opportunities on our MSc Economics programmes include:

- Summer School
- Dissertation Abroad
- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Introduction to Finance

By choosing to study finance at Durham, you will be joining a vibrant academic community committed to excellence in research and teaching. Our programmes are designed to equip you with the tools and knowledge necessary to navigate the complexities of the financial world and to make impactful contributions in various finance-related fields.

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

durham.ac.uk/business/programmes/masters/scholarships

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum. Opportunities on our MSc Marketing programme include:

- Summer School
- Dissertation Abroad
- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Programme overview

The MSc in Marketing at Durham University Business School offers an in-depth exploration of contemporary marketing theories and practices. This programme is designed to develop your understanding of key marketing concepts and their application in real-world scenarios, preparing you for a successful career in various marketing roles. You will engage with cutting-edge research and industry insights, ensuring that you are well-equipped to tackle the dynamic challenges of the marketing landscape.

Core modules

- Buyer Behaviour and Marketing Innovation
- Business to Business Marketing
- Contemporary Marketing Communication
- Marketing Management and Strategy
- Marketing Theory

Either

- Research Methods and Dissertation in Marketing (International study route and business project routes available)
- Influencer and Content Marketing: Theory and Practice

Optional modules

Students can customise their learning experience by selecting from a range of optional modules that reflect their interests and career aspirations. Example optional modules include:

- Digital Marketing
- Global Marketing
- Innovation and Technology Management
- Science of Leadership
- Society and Sustainability

All my professors are excellent, with many years of teaching and research experience and numerous publications in top-tier academic journals.

Yuyu Jiang,
MSc Marketing

Joint programmes

Our innovative joint programmes are collaboratively designed by multiple departments to provide a comprehensive and interdisciplinary learning experience. By leveraging the unique strengths and expertise of each department, our programmes offer diverse perspectives and skills, ensuring that our participants are well-equipped to excel in their chosen fields.

Introduction to Business Analytics

Our MSc in Business Analytics brings together the expertise of the Business School and the Department of Computer Science. The Department of Computer Science delivers high quality teaching and research and their programmes have been specifically designed to be demanding and intellectually challenging, whilst at the same time being scientifically, technologically and industrially relevant.

MSc Business Analytics

Entry requirements

The programme is designed for graduates from either a business background (with evidence of strong quantitative content) or a tech background (including numerate scientific disciplines with strong computational content). You will need a UK first or upper second-class honours degree or international equivalent in one of the following:

- Business
- Computer Science
- Related subject with strong quantitative component

If English is not your first language, please note that you must meet a minimum overall standard in a recognised test of English. Further details are available on our [MSc Business Analytics webpage](#).

As there is a high demand for this programme with a finite number of places available, we operate a staged admissions process with application deadlines throughout the year.

Apply online

durham.ac.uk/business/courses/business-analytics-g5k709

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

durham.ac.uk/business/programmes/masters/scholarships

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum.

Opportunities on our MSc Business Analytics programme include:

- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Programme overview

Our one year, full-time MSc Business Analytics programme is designed to help you understand the role of business analytics within an organisation. It will also help you gain insights from data through decision making techniques, algorithms for big data, machine learning, and natural language techniques for social media analytics.

Core modules

- Introduction to Business Analytics
- Data Analytics in Action
- Learning from Data
- Managing Data-Driven Innovation
- Natural Language Analysis
- Retail Analytics
- Data Analytics for Strategic Decision-Making

International field trip

The field trip aims to provide you with the experiential learning needed to acquire an inside perspective of operating globally. You will visit a series of data-intensive participating organisations, where you will analyse each organisation using a structured learning approach and present your analysis to the representatives of the participating organisations. With travel and accommodation costs fully funded by the University, this activity provides an excellent opportunity to apply your academic learning to a real-world challenge, whilst enhancing your employability through exposure to new cultures and ways of working in international companies.

****Documentation will be provided by the Business School to aid your visa application, however, if you are unsuccessful in obtaining a visa for the field trip, no refund on fees will be provided.***

Business Analytics Project

You will investigate an in-depth issue which is applicable and relevant to business analytics and will enable you to incorporate your skills and learning from previous modules. You can pursue your project in two ways, either by working with a host organisation or by producing an issue-led investigation which is not focused on just one organisation, but instead examines a specific business analytics issue.

A unique highlight is the International Field trip, where we collaborated with the University of San Francisco on a business analytics problem. The opportunity provided invaluable exposure to real-world challenges.

Syed Arham Asif, MSc Business Analytics 2023/24

Introduction to Energy Engineering Management

Our MSc in Energy Engineering Management is an exciting programme designed to address the complex challenges and opportunities within the energy sector. Taught full-time over one year in the historic city of Durham, this innovative programme is a collaboration between Durham University Business School and the Department of Engineering, in partnership with the Durham Energy Institute. This interdisciplinary approach ensures that students gain a comprehensive understanding of both the technical and managerial aspects of energy systems.

We offer a comprehensive package of scholarships celebrating and rewarding exceptional candidates applying to our Masters programmes.

durham.ac.uk/business/programmes/masters/scholarships

Enrichment opportunities

We offer a range of opportunities designed to enhance your academic experience and professional development. These activities provide valuable skills, expand professional networks, and offer practical insights that complement the formal curriculum. Opportunities on our MSc Energy Engineering Management programme include:

- Practitioner Insights - Guest Speaker Programme

For more information on enrichment opportunities see page 32.

Programme overview

The MSc Energy Engineering Management programme offers a unique blend of technical engineering knowledge and advanced management skills. This interdisciplinary programme is designed to equip you with the tools and skills required to tackle contemporary energy challenges and drive sustainable and efficient energy solutions. The curriculum integrates theoretical foundations with practical applications, enabling you to embark on an exciting and fulfilling career in the energy sector and related fields.

Core modules

- Business and Engineering Systems
- Decarbonisation of Heating and Cooling
- Future Vehicles
- Career and Professional Skills Development
- Environmental and Climate Economics
- New Venture Creation

Optional modules

Example optional modules have typically included:

- Artificial Intelligence and Deep Learning
- Context and Challenges in Energy and Society
- Decision Science and Analytics in Energy Business Management
- Environmental Engineering
- Renewable Energy Technologies
- Society, Energy, Environment and Resilience

Strategic Business and Engineering Project

This final part of your programme involves an in-depth investigation into an issue of your choice, relating to the business and management of an energy systems process. The project is the culmination of your studies and will enable you to incorporate your skills and learning from previous modules.

The climate crisis is a global issue that requires a global approach to solve. The MEEM program is the perfect place to gain a global perspective on ways to combat the climate crisis since our diverse cohort allows us to learn about climate practices all over the world.

Harper Daniels, MSc Energy Engineering Management 2023/24

Enrichment Opportunities

We offer a range of enrichment opportunities designed to help you stand out from the crowd.

32

International opportunities

We're proud of our strong international connections. Helping you get an inside perspective is a key part of the programme. That's why we offer a range of opportunities to help immerse you in a country's business and academic environment, make new contacts and stand out in a competitive job market. International opportunities include:

Summer School

During the summer, you will have the chance to attend a Summer School at one of our esteemed global university and business partners. These partially self-funded, competitive programmes typically take place for up to three weeks in June, July, or August, following the exam period. They cover a broad spectrum of topics designed to enhance the knowledge you've gained at Durham. Please note that due to limited availability, all students must apply to secure a spot in these highly sought-after Summer Schools.

Dissertation abroad

MSc students at Durham University Business School have the opportunity to apply to complete their Dissertation (research project) at one of our prestigious European partner institutions, from June to September. This partially self-funded programme is highly popular among our students and will allow you to experience living abroad, expand your network, and gain insights into campus life in a different country. Participating in this programme not only enhances personal skills but also boosts employability by showcasing adaptability, resilience, communication skills, and a global mindset. The international team at the Business School will support you throughout the process, from application to departure, ensuring a smooth and enriching experience.

Practitioner insights — Guest Speaker Programme

An integral part of the programme is the engagement with the world of practice. Our Guest Speaker Programme provides the opportunity to enjoy presentations by leading international academics and practitioners within your chosen area of interest. Past speakers have included representatives of major global multinationals and leading scholars, combining critical and progressive thinking with practical insights.

Careers Support

Whether you want to work for an organisation, for yourself, or go on to further study, our career development support and guidance offers you the opportunity to build your employability skills.

34

Our Team offer a wide range of opportunities to help you develop the skills necessary to build a successful future career. With its own dedicated postgraduate careers team we offer a full range of careers services, which are internationally-focused and reflective of the global locations in which our students want to work. Created to complement the events, workshops and fairs organised by the University's Careers and Enterprise Centre, we will support you through your programme and beyond. You will be given information about the careers programme during your first few weeks at Durham, including access to the Business School's online Career Development Portal.

Our service is designed to give you the opportunity to:

Develop the essential skills demanded by international recruiters through interactive workshops.

Network with businesses and engage with international recruiters in a range of activities, presentations and events.

Access a huge range of resources, international jobs board, CV and assessment technology and career webinar series.

Individual career opportunities

Appointments with our Career Consultants give you the opportunity to develop your CV, improve your job search strategy and prepare for interviews. The team also offer practice interviews and assessment exercises to help you with your preparation.

Connecting with business

There are many opportunities throughout the year. From engaging with organisations and alumni to further enhance your knowledge and skills, to meeting with a range of recruiters via workshops, presentations and fairs. Working in partnership with the University's Careers and Enterprise Centre, you can engage with some of the UK's leading employers as well as international employers using video conferencing technology in the Business School.

dur.ac.uk/study/careers-employability-enterprise

Supporting your studies

At Durham you will benefit from all the resources you'd expect from a leading business school. From the latest IT and library services to a virtual learning environment, you'll have everything to hand to make the most of your learning.

durham.ac.uk/colleges-and-student-experience

36

Our colleges

All full-time postgraduate students become a member of one of our colleges. As well as offering a wide range of societies, social and cultural activities, your college will provide support and a sense of belonging during your time in Durham, adding to your overall experience and helping you graduate with much more than just a degree.

Accommodation

We offer good quality, reasonably priced accommodation at Durham University. If this is not for you, we can help you find local private accommodation to suit your needs. We will provide you with more specific details upon application.

durham.ac.uk/colleges

teamdurham](https://durham.ac.uk/teamdurham)

Sports facilities

Sport is an important part of Durham life and our facilities are second to none. From our British Rowing Performance Centre to the British Fencing Centre, and boasting teams which compete in the England Hockey National leagues and the FA Women's Super League, we can offer something for everyone. For more information, visit [Team Durham](#).

37

Global alumni network

When you join us, you become a member of the Business School's alumni network. With over 36,000 members in over 140 countries, it facilitates friendships and business connections, and sits at the heart of the Durham experience. Our alumni community enjoys online career resources and global career and network-building events.

 - Phase 3 - MSc

Durham MBA

Are you considering the next step in your career?

Our MBA programmes are designed to provide you with everything you need for success in the business world: agile analytical thinking, global awareness and strong communication skills. With close connections to many leading organisations, we are both informed by and immersed in the dynamic commercial landscape. We offer three ways to study the MBA.

Durham MBA (Online)

Ranked 6th in the world (Financial Times Online MBA Ranking 2024), the Durham MBA (Online) will enhance your key business and leadership capabilities to enable you to achieve your career aspirations whilst you continue in full-time employment, so you can apply what you learn directly into the organisation you work for.

It is studied over two years, part-time and flexibility is very much at the heart of the Durham MBA (Online). You can choose to study entirely online or take a more blended approach and attend some modules at the Business School in Durham.

durham.ac.uk/business/programmes/mba/online-mba

Durham MBA (Full-time)

Ranked 78th in the world (Financial Times Global MBA Ranking 2024), combining theory and practical business experience, the Durham MBA (Full-time) is both challenging and inspiring, the programme is continually enhanced to ensure you perform at the cutting-edge of your chosen profession. Studied over 12 months, you will be encouraged to confront new ideas, explore innovative management theories and apply your learning to the world of practice.

durham.ac.uk/business/programmes/mba/full-time

The Durham MBA stood out to me for several reasons. Firstly, the programme structure emphasises applying theory to practice rather than being purely theory-oriented, which aligns perfectly with my interests and expectations. Also, having studied at Durham University nine years ago, I knew it would be a great place to return to. The University has a strong culture of supporting students, and the college system provides excellent support and networking opportunities.

**Sachiko Yoshizumi,
Full-time MBA Alumna**

Executive MBA

The Durham-EBS Executive MBA

The Durham-EBS Executive MBA (EMBA) is focused on the business world, with delivery and activities taking place in both the UK and Germany, at two renowned European business schools. Designed for talented managers and entrepreneurs who have a desire to make a positive difference, it enables you to develop the advanced business skills and knowledge that will enhance your career without having to take a break from your current role. In just 18 months you can achieve two internationally recognised qualifications.

University
Business School

EBS
UNIVERSITÄT

About the Durham-EBS Executive MBA (EMBA)

The programme's strong international focus is also reflected in the core and elective modules, the diverse teaching faculty as well as the diversity of student backgrounds in each cohort. The business and alumni connections you gain will also support you in furthering your career. This dual award draws on both UK-specific and European experience giving you an insight into leadership in today's international business world.

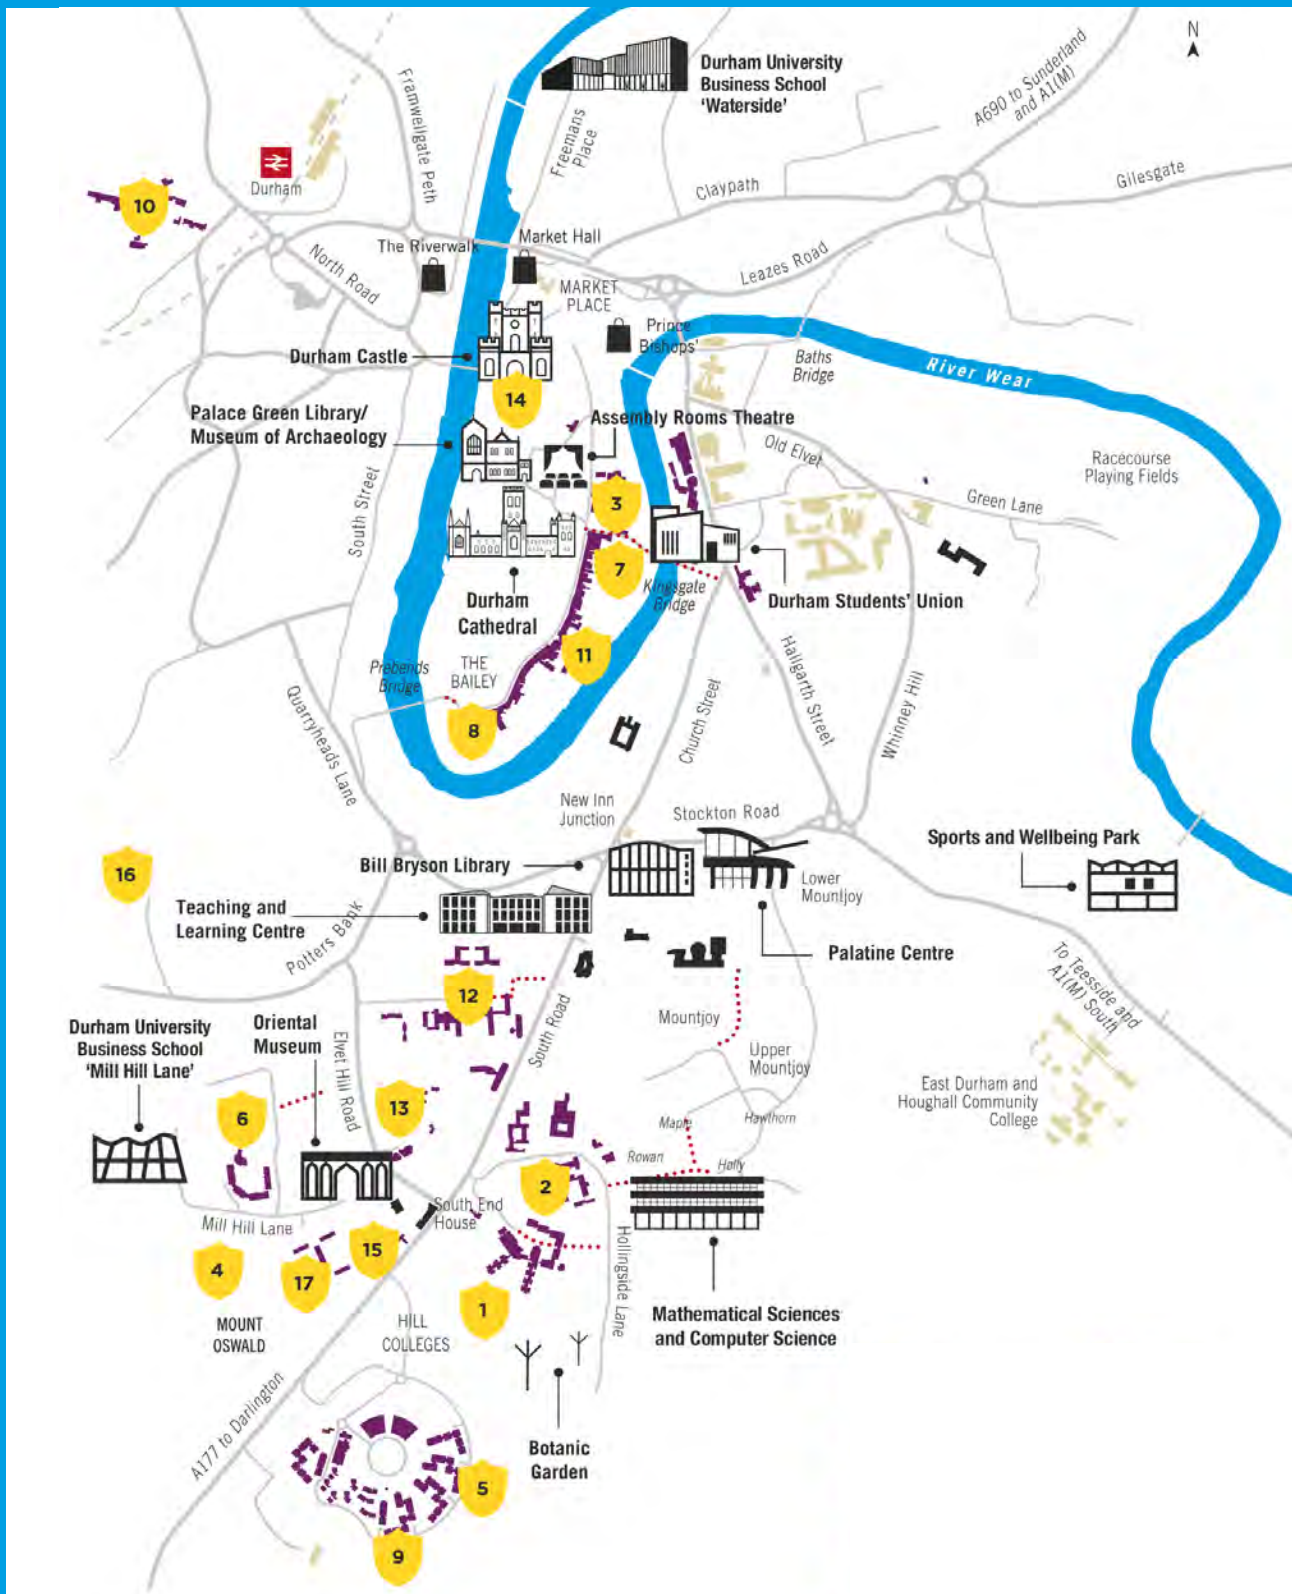

Throughout the programme, you will explore the operations of global markets, understand how to lead transnational business relations and further build your international network of contacts. You will also be working alongside a diverse group of experienced business professionals and academics from the UK, Germany and around the world. The Durham-EBS Executive MBA programme commences each September with a seven-day residential stay in Durham, England.

This prestigious dual award offered by two leading European universities will teach you the skills and knowledge required to take on additional responsibility in business management. This knowledge can be applied in your existing role or used to further your career ambitions in the wider sector.
