Global horizons

Programme structure

Personalise your study, choose your journey

Everyone has different aspirations and goals when choosing their MBA, so we've designed our programme with that in mind and given you the option to choose a pathway most in-line with your career ambitions.

For detailed information about the modules studied on the Full-time MBA visit durham.ac.uk/business/programmes/mba/full-time

1. Foundation

Key knowledge and skills to start your MBA journey.

You will study a variety of modules in subjects including leadership, accounting and marketing which will provide you with fundamental knowledge and skills for business.

2. Consolidate

Consolidate your knowledge

In today's business world it is becoming increasingly important for business leaders to understand the complex ethical and social factors which surround them. This next stage will bring your knowledge and skills together to enable you to understand how to make operational and strategic decisions in a globally challenging environment.

International Business in Context

Context is everything. In today's business world you need the ability to operate successfully in a highly competitive international environment.

During your International Business in Context module, you will visit an organisation overseas, where you will immerse yourself in local business culture and gain a critical awareness of the complexities involved in operating in the global marketplace.

3. Specialise

Three routes to choose from, one world-class qualification

During your MBA you will have the opportunity to specialise in either entrepreneurship, consultancy or technology. Each pathway includes two academic modules, skills workshops and strategic insights provided by industry experts.

“The benefits of studying the Durham MBA far exceeded my expectations. The MBA curriculum was very impressive and every subject I studied gave me a great insight into business planning. The skills which I learned through the technology pathway were very practical and I have been able to use them regularly in my role since completing my MBA.”

Consultancy Pathway

Provides an essential platform for you to embark or progress your career in advisory and advanced service delivery environments. Designed to develop the skills needed for success in consultancy, you will learn from real situations and from expert speakers who will be invited to share their experiences with you.

Gain in-depth insight into the global consultancy industry, enhance your capabilities in management consulting and project management. Taught modules, case analysis, capability enhancement workshops and master-classes, enable the key competencies needed to excel within this global marketplace.

You will also have the opportunity to work with a local charity on a business issue and will apply your advanced critical, evaluative and communication skills to a real business situation, delivering tangible added value to a charitable cause.

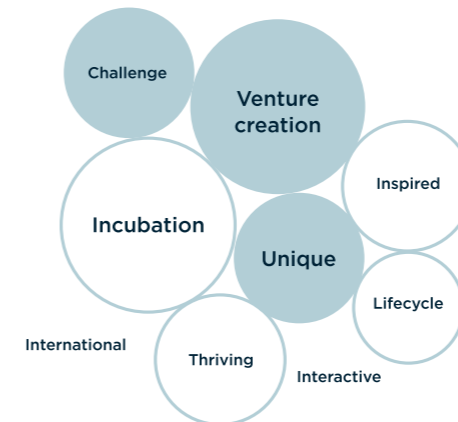

Entrepreneurship Pathway

Explores new venture creation process, the theoretical perspectives on entrepreneurship, and entrepreneurship within corporations.

Modules, master-classes and debates aid understanding of these and help you to build your own unique brand of entrepreneurship. Social responsibility and ethics are embedded, focussing on social enterprise as a response to social demand. Diverse guest speakers describe their own journeys, allowing you to ask personally relevant questions. Access to business angels and venture capitalists, as well as legal, networking, and support services.

Themes include family businesses, social entrepreneurship, corporate intra/entrepreneurship, policy perspectives, and diversity issues. Framework issues – entrepreneurial strategy, management, leadership and HR practices, as well as team building and self-awareness, are also important pathway elements.

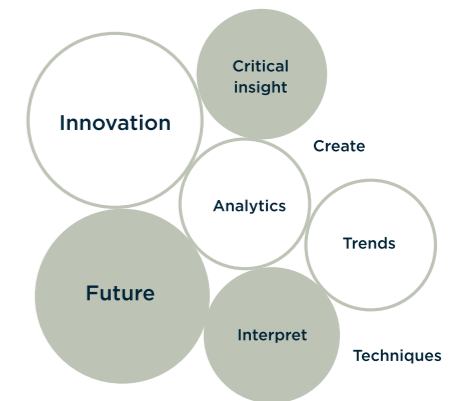

Technology Pathway

Technology continues to disrupt business. This pathway provides an in-depth knowledge of business analytics to give a critical insight into technology innovation. You will learn how to manage innovations, analyse and apply data to improve management decision-making, develop new products, and deliver them using an agile approach.

On this pathway you will increase your range of skills to interpret results and the relevance of them for your company. You will also learn how to choose appropriate techniques to apply to challenges and fully understand the role of technology as a ‘game changer’ in terms of creating new products or markets.

Through your learning, you will identify underlying drivers and future trends in technological innovations will become a key aspect of your leadership toolkit.

4. Apply knowledge

Strategic Consulting Project

The Strategic Consulting Project will provide you with the opportunity and support to conduct an in-depth investigation at an advanced level of an issue or a business challenge which is applicable to an industrial, commercial, public sector or charitable organisation.

Working with a real company, you will analyse and evaluate a strategic issue, challenge and explore concepts and apply the knowledge and skills you have acquired in the classroom. This is an excellent opportunity for you to gain experience relevant to your career aspirations, enhance your professional network and pitch yourself as a future manager.

Careers and Professional Development CPD

Advance your capabilities

The Careers and Professional Development CPD module is an integral part of your MBA journey. Designed by identifying what global MBA recruiters demand and in consultation with MBA alumni, you will build and explore the skills and capabilities needed to elevate your global career.

Your key leadership capabilities will be honed and enhanced through your tailored MBA experience to provide you with the practical knowledge and training you need to succeed.

You will also have the opportunity to personalise your development by assessing your own skill levels, setting challenging goals and creating an individual action plan.

The module will contribute to the overall aims of the MBA programme by offering you opportunities to develop your skills and capabilities in the areas of leadership, digital, global and sustainability and ethics.

Our International, Engagement and Careers team provide a dedicated personal consultancy service to all MBA students and graduates. Whether you're looking to advance your career within your current function or sector, or switching career path, they will support you throughout your programme and beyond.

"The quality of the lectures and diversity of the cohort made for an unforgettable experience. In addition to this, my family enjoyed the benefits of living in a historic British city. We had the opportunity to stay at Keenan House, within Ustinov College, which provides accommodation for families. It was very hard to leave, what was our home for a year, as we forged friendships that would last a life time."

Entry requirements

Making the grade

The Durham MBA (Full-time) programme has the following entry criteria:

- Candidates must be able to demonstrate at least three years' continuous post-graduation work experience, in one or more positions with significant managerial responsibility.
- An upper second class Bachelor Degree or international equivalent

Lack of formal qualifications is not necessarily a barrier to admission; managerial experience is also a key consideration for entry to our MBA programme.

In such cases, we may ask you to submit a portfolio of evidence demonstrating capability in areas such as management experience, including critical thinking and communication skills.

Additionally, candidates whose first language is not English will normally be required to demonstrate evidence of proficiency in English language as follows: a recent English language test score of 7.0 or above in IELTS with no element below 6.0, or 102 or above in TOEFL IBT with no element below 23 or an alternative University approved English language test.
