Graduate Spotlight

Kushal

MSc New and Renewable Energy

What has stuck with me after leaving Durham is making time to pursue my hobbies and avoid burning out at work. I really enjoyed taking a walk by the River Wear which was relaxing, and I took part in trips outside Durham organised by my college. This took the pressure off my study. Whatever you study and whatever you're passionate about, there is always something new to learn and it continues even after graduation.

Have your say...

We hope you enjoy the day and would love **your feedback**. Look out for our **event survey** and let us know how we did. Your views are important to us and will help us to plan future events and improve our service.

Be inquisitive
Be you.

Whatever your reasons for thinking about postgraduate study, at Durham you'll find an atmosphere that is supportive, enabling and challenging.
